RESOLUTION G-21-51 - TO ADOPT THE 2022 STIP FUND ESTIMATE

CALIFORNIA TRANSPORTATION COMMISSION

- 1.1 WHEREAS, Sections 14524 and 14525 of the Government Code require the California Department of Transportation (Department) to present, and the California Transportation Commission (Commission) to adopt, a biennial fund estimate to include and estimate all state and federal funds reasonably expected to be available for the biennial State Transportation Improvement Program (STIP), including the amount that may be programmed in each county for regional improvement programs; and
- 1.2 WHEREAS, on January 27, 2021, the Department presented an overview of the fund estimate process and schedule; and
- 1.3 WHEREAS, on May 12, 2021, the Department presented, and the Commission approved the 2022 Fund Estimate assumptions; and
- 1.4 WHEREAS, on June 23, 2021, the Department presented to the Commission the Draft 2022 Fund Estimate; and
- 1.5 WHEREAS, on July 19, 2021, the Commission held a workshop on the Proposed 2022 Fund Estimate to consider public comment, and indicated that the adoption of the 2022 Fund Estimate would be scheduled for August 18, 2021; and
- 1.6 WHEREAS, on August 18, 2021, the Department presented to the Commission an updated, Proposed 2022 Fund Estimate; and
- 1.7 WHEREAS, the Proposed 2022 Fund Estimate identifies new program capacity of approximately \$808 million in new highway STIP capacity for the five-year period covering 2022-23 through 2026-27; and
- 1.8 WHEREAS, the Proposed 2022 Fund Estimate includes annual programming targets, adjusted for STIP amendments and allocations through June 2021.
- 2.1 NOW THEREFORE BE IT RESOLVED that the California Transportation Commission does hereby adopt the 2022 STIP Fund Estimate, as presented by the Department on August 18, 2021, with programming in the 2022 STIP to be based on the statutory funding identified; and
- 2.2 BE IT FURTHER RESOLVED that the Commission requests that the Department, in cooperation with Commission staff, distribute copies of the 2022 Fund Estimate to each regional agency and county transportation commission.

EXECUTIVE SUMMARY

On August 18, 2021, the California Transportation Commission adopted the 2022 State Transportation Improvement Program (STIP) Fund Estimate (FE). The STIP FE is a biennial estimate of all resources available for the state's transportation infrastructure over the next five-year period, and establishes the program funding levels for the STIP and the State Highway Operation and Protection Program (SHOPP). The 2022 STIP FE period covers state fiscal years 2022-23 through 2026-27, with 2021-22 included as the base year.

The 2022 STIP FE incorporates both short-term and long-term impacts the COVID-19 pandemic had on the transportation sector. In early 2020, Governor Newsom declared a state of emergency shelter-at-home order to ensure public health and safety. This order, in conjunction with business industries transitioning employees to teleworking, significantly impacted public transportation ridership, gasoline consumption, and vehicle miles traveled on the State Highway System (SHS). In addition, gasoline consumption projections were adjusted to reflect the Governor's Executive Order, which requires all new passenger vehicles to be zero-emission by 2035.

STIP Capacity

STIP projects add new development to the state's transportation infrastructure. The 2022 STIP FE includes a total estimate of \$2.1 billion in program capacity over the five-year FE period. Program capacity represents the total value of projects that can be funded each year, including construction, right-of-way (R/W), and support. Support consists of preliminary engineering, planning, design, and construction engineering. From the \$2.1 billion in total estimated program capacity over the 2022 STIP FE, new STIP capacity currently available for programming is approximately \$808 million over the FE period.

2022 STIP FE STIP Program Capacity (\$ in millions)											
5-Year 6-Y											
2021-22 2022-23 2023-24 2024-25 2025-26 2026-27 Total

Estimated Capital Allocation Capacity	\$580	\$590	\$250	\$250	\$270	\$300					

SHOPP Capacity

SHOPP projects are funded with federal and state resources and consist of major rehabilitation work on the SHS. The 2022 STIP FE forecasts SHOPP capacity of \$21.8 billion over the five-year FE period. Similar to the STIP, SHOPP capacity represents the total value of projects that can be funded each year, and includes construction, R/W, and support. From the \$21.8 billion in total estimated program capacity over the 2022 STIP FE, new SHOPP capacity currently available for programming is about \$13.4 billion over the FE period.

 $^{^{1}}$ Includes outstanding Plans of Financial Adjustment and encumbrances.

² Excise tax revenues are based on Department of Finance projections from 2021-22 through 2025-26 per Aeronautics Account Assumption #2.

³ Fiscal year transfers from Local Airport Loan Account were approved by the Commission in May 2021. Subject to concurrence with the Department of Finance. See Aeronautics Account Assumption #6.

County and Interregional Share Estimates

The STIP consists of two broad programs, the regional program funded from 75 percent of new STIP funding and the interregional program funded from 25 percent of new STIP funding. The 75 percent regional program is further subdivided by formula into County Shares. County Shares are available solely for projects nominated by regions in their Regional Transportation Improvement Programs (RTIP).

The 2022 STIP Fund Estimate (FE) indicates that there is negative program capacity for the Public Transportation Account (PTA). This means that transit projects currently programmed or proposed for programming in the STIP must be eligible for State Highway Account (SHA) funds or federal funds.

The following tables display STIP county and interregional shares and targets for the 2022 STIP.

Table 1. Reconciliation to County and Interregional Shares

This table lists the net changes to program capacity from the 2022 STIP FE to the capacity used in the County and Interregional Shares. This table also separates the program capacity by PTA and SHA capacity. The table is based on Commission actions through June 30, 2021.

Table 2. Summary of Targets and Shares

This table takes into account all county and interregional share balances through the June 2021 Commission meeting, as well as new statewide STIP capacity. For each county and the interregional share, the table identifies the following target amounts:

- <u>Total Target</u>: This target is determined by calculating the STIP formula share of all new capacity through 2026-27. The calculation of this target is shown in Table 3.
- <u>Maximum</u>: This target is determined by estimating the STIP formula share of all available new capacity through the end of the county share period in 2027-28. This represents the maximum amount that the Commission may program in a county, other than advancing future shares, pursuant to Streets and Highways Code Section 188.8(j), to a county with a population of under 1 million. The calculation of this target is shown in Table 4.

Table 3. Calculation of New Programming Targets and Shares - <u>Total Target</u> This table displays factors in the calculation of the Total Target.

- <u>Net Carryover</u>: These columns display the current share status, including STIP allocations and amendments through the June 2021 Commission meeting. Positive numbers indicate unprogrammed shares, and negative numbers indicate shares that were advanced.
- <u>2022 STIP Target Through 2026-27</u>: This section calculates the total target. The total target is the formula distribution of new capacity available through 2026-27 adjusted for carryover balances and lapses.
 - o <u>Formula Distribution</u>: This is the 2022 STIP share through 2026-27. It is the formula distribution of program capacity available through 2026-27. The amount distributed is the new capacity less the unprogrammed shares, lapses, and the decrease in advances.

- Add Back 2019-20 & 2020-21 Lapses: This identifies the amount for projects lapsed in 2019-20 and 2020-21. These amounts are credited back in the 2022 STIP Fund Estimate to county and interregional shares for the four-year share period beginning 2024-25.
- Net Share (Total Target): This is the 2022 STIP target through 2026-27. The Net Share (Total Target) is calculated by adding to the formula distribution the lapses and the unprogrammed balance or balance advanced. In cases where the distribution of new capacity is insufficient to cover prior advances (i.e., the Net Share would be less than zero), a zero appears in the Net Share column.
- Net Advance: Numbers in this column represent advances against future capacity.
 This occurs when the distribution of new shares (through 2026-27) is insufficient to cover prior advances.

Table 4. Calculation of New Programming Targets and Shares – <u>Maximum</u>

This table calculates the maximum amount that the Commission may program in a county, other than advancing future shares, pursuant to Streets and Highways Code Section 188.8(j), to a county with a population of under 1 million.

- <u>Net Carryover</u>: These columns display the current share status, including STIP allocations and amendments through the June 2021 Commission meeting. Positive numbers indicate unprogrammed shares, and negative numbers indicate shares that were advanced.
- <u>2022 STIP Share Through 2027-28</u>: This section estimates the maximum target. This is the formula distribution of estimated new capacity available through 2027-28 adjusted for carryover balances and lapses.
 - <u>Formula Distribution</u>: This column estimates the STIP share of the estimated new capacity through the county share period ending in 2027-28. It is the formula distribution of estimated program capacity available through the county share period ending in 2027-28. The amount distributed is the new capacity less the unprogrammed shares, lapses, and the decrease in advances.
 - Add Back 2019-20 & 2020-21 Lapses: This identifies the amount for projects lapsed in 2019-20 and 2020-21. These amounts are credited back in the 2022 STIP Fund Estimate to county and interregional shares for the four-year share period beginning 2024-25.
 - Net Share (Maximum): This target is the STIP share of all available new capacity through the end of the county share period in 2027-28. This represents the maximum amount that the Commission may program in a county, other than advancing future shares, pursuant to Streets and Highways Code Section 188.8(j), to a county with a population of under 1 million. The Net Share (Maximum) is calculated by adding to the formula distribution the lapses and the unprogrammed balance or balance advanced. In cases where the distribution of new capacity is insufficient to cover prior advances (i.e., the Net Share would be less than zero), a zero appears in the Net Share column.

Net Advance: Numbers in this column represent advances against future capacity.
 This occurs when the distribution of new shares (through 2027-28) is insufficient to cover prior advances.

Table 5. Planning, Programming, and Monitoring (PPM) Limitations

State law provides that up to 5% of a county share may be expended for planning, programming, and monitoring (PPM). This limitation is applied separately to each four-year county share period.

- <u>Total</u>: This section identifies the shares for the 2024-25 through 2026-27 share period based upon the 2020 and 2022 Fund Estimates. These are the amounts against which the 5% is applied.
- <u>5% PPM Limitation</u>: These are the PPM limitations for the 2024-25 through 2026-27 share period.
